Experiment -1

AIM: To create an AWS free tier account to provision the resources.

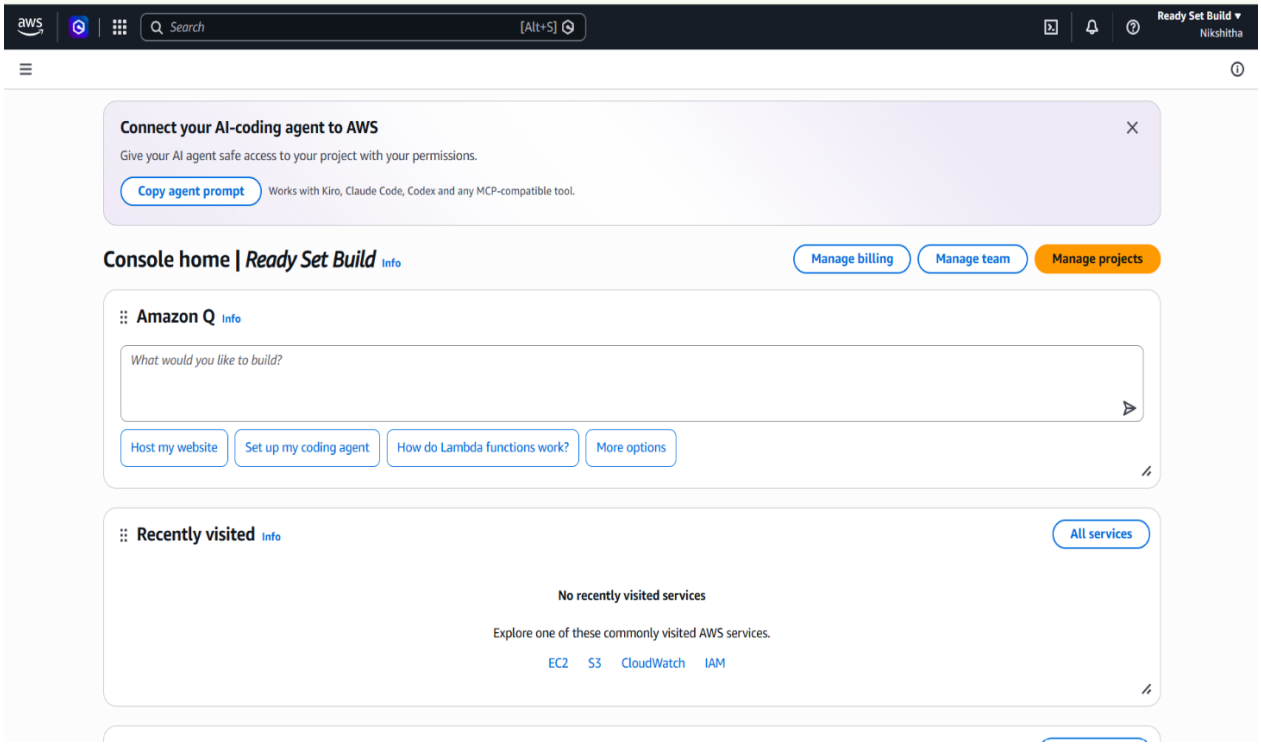

Description:

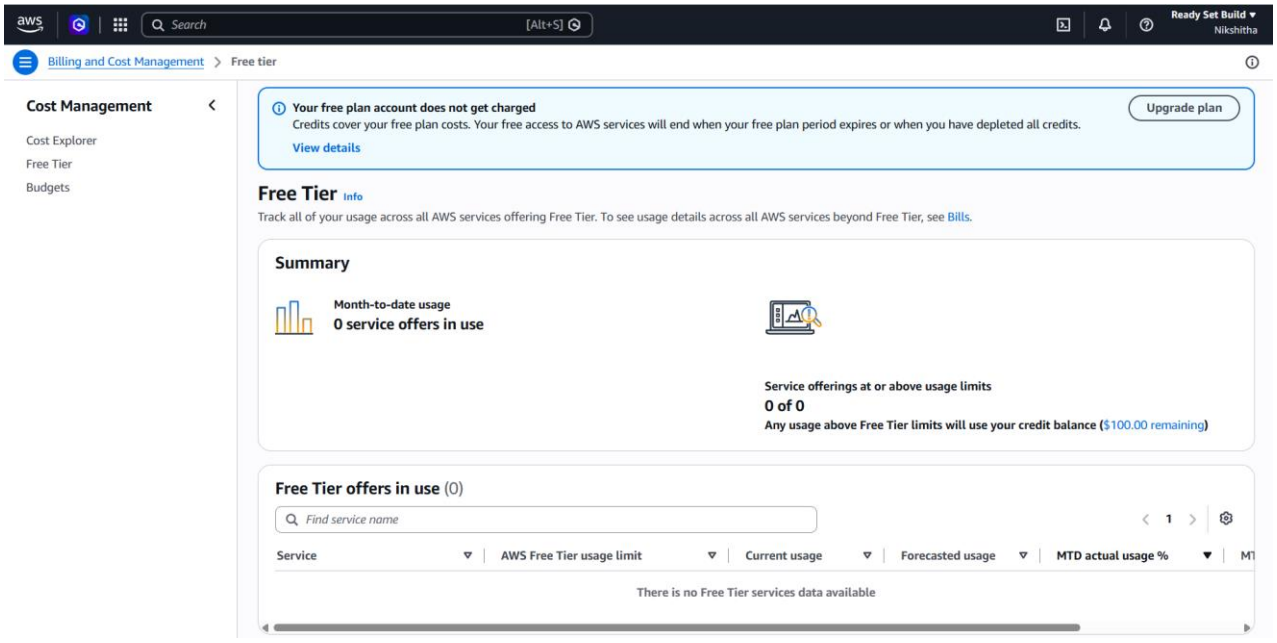

To create an AWS Free Tier account by completing the registration process, including email verification, personal details, mobile number verification, and payment information. Complete the required identity verification using the available options, such as DigiLocker or other accepted documents, if prompted. After successful verification, access the AWS Management Console to explore and provision cloud resources like EC2, S3, and RDS. This process provides hands-on experience with cloud computing and AWS services for academic and project purposes.

Steps:

1. Open https://aws.amazon.com/free/.
2. Click Create a Free Account.
3. Enter your email ID and AWS account name.
4. Create a password and verify your email using OTP.
5. Select Personal account.
6. Enter your full name, mobile number, and residential address.
7. Enter your payment details (debit/credit card).
8. Complete mobile number verification using OTP.
9. If an identity verification option is provided, follow the instructions to verify your identity using the requested documents.
10. If DigiLocker is offered as a verification option, log in to DigiLocker and authorize the requested document sharing.
11. Complete any additional verification requested by AWS.
